 Right encoder 2 default: arrow up/down

## Layer 0

# Layer 1

The image shows a virtual keyboard layout for Layer 1. The keyboard is divided into two main sections: a left section with specific function keys and a right section with a grid of dropdown menus. The left section includes keys for 'BL Cycle', 'Hue +', 'Hue -', 'Sat +', 'Sat -', 'Bright +', and 'Bright -'. Below these are rows of 'RGB Toggle' and 'RGB Mode +' keys, followed by several rows of single-key dropdown menus. The right section consists of a grid of dropdown menus, with some keys spanning multiple columns or rows, creating a complex layout of adjustable settings.
